## **Welcome New Members**

Happy 2009!

CLPFFA wants to welcome everyone into the new year! As you all know, we all have come a long way over the last several years as a "Professional Firefighters Union". We are looking forward to many exciting projects and events over the next several months.

We have several new members among us which we are proud to represent in traditional IAFF brotherhood fashion. Welcome Kyle Ingram, Jason Devries, John Young, Mark Crawford, and Rodney McCutchen.

Newly elected officers are at hand, and are excited to bring the Canyon Lake Professional Firefighters Association into 2009 with a bang!

## **Thank You!**

Thanks to all of you who participated in the recent survey regarding the snack machine. This is just one of the few ways that you as a general membership will be able to make decisions and give valuable input to CLPFFA.

Remember that CLPFFA is committed to all of its members pertaining to making general decisions. This is "your" union, participation is key in achieving what "you" want.

Be sure that you keep an eye on your email for the results of the recent survey.

## **2009 Officers**

## **CLPFFA Goes Local**

It is finally here! Canyon Lake Professional Firefighters Association is now recognized by IAFF as a LO-CAL.

If course we all thank everyone involved in the I-0075 organization for building the blueprint which we are able to use today as Local 4713.

With this new status among IAFF, we are being held to a

higher standard. CLPFFA will become more organized, more involved, and more readily recognized by the community which its members serve.

We are asking for the support of all the CLPFFA members to enable us to achieve this task and set forth a new professional reputation as Local 4713
